

# Self Worth – An Introduction

## Bunbury

Healthy self-worth is one of the keys to physical and emotional well-being. It is central to our motivation and plays a big part in our capacity to make decisions and choices. With healthy self-worth we are more able to participate in positive relationships with others and maintain a consistently good emotional state in which a person is better able to feel good about themselves.

In this session we will discuss:

- what constitutes healthy self-worth
- factors that can increase and decrease self-worth
- links between self-worth and the success of relationships
- strategies to increase and maintain healthy self-worth.
